MelilloSMART
Empowering Your Vision

MelilloSMART Solutions for Financial Services

It's constant pressure to process transactions quickly and accurately, enhance computing efficiency, and maintain data security—all while navigating a highly regulated environment. The demand for speed, performance, and compliance continues to grow in a landscape where cyberattacks are up. In 2023 alone, the financial services industry saw 744 data compromises, a 439% jump from the 138 reported in 2020.*

MelilloSMART, a suite of proprietary, turnkey IT solutions helps you not only overcome these challenges, but also seize new opportunities to maintain your competitive advantage. Offering holistic, comprehensive support and consultancy designed to minimize complexity and boost productivity, the MelilloSMART solutions include:

- **MelilloSMART RiskMit:** Identify and address security vulnerabilities, strengthening your defenses against cyber threats and ensuring your sensitive financial data is protected.

- **MelilloSMART Protect:** Safeguard against threats with a comprehensive managed service that employs regular Penetration Testing and ongoing vulnerability assessments to improve your cybersecurity posture.

- **MelilloSMART EZMigrate:** As you navigate the complex landscape of mergers and acquisitions, seamlessly integrate disparate systems and standardize platforms across newly united entities.

- **MelilloSMART RapidDeploy:** With the ability to create a virtual sandbox for preliminary testing, we make it easy to deploy high-performance computing applications quickly and securely to support critical financial transactions.

- **MelilloSMART SupportTRAX:** Manage renewals and terms with a contract management solution that automates notifications and tracking to ensure you never miss a critical renewal deadline.

- **MelilloSMART AIAdapt:** Use AI to automate routine financial operations, optimize data analysis, and ensure consistent compliance, to boost operational efficiency and reduce human error in high-stakes financial environments.

- **MelilloSMART DataOpt:** Transform your big data into a strategic asset with AI/ML, Data Warehouse, Data Lake, and Data Lakehouse solutions for enhanced decision-making and stronger financial performance.

MelilloSMART

As technology continues to evolve, it presents both opportunities and challenges for your financial institution. Built by a team of experts who have been in the business of technology for over 30 years, MelilloSMART leverages advanced technology to help you navigate these complexities to ensure your operations are efficient, secure, and compliant, ultimately driving better business outcomes.
