

## MelilloSMART Solutions for Healthcare

You're under constant pressure to meet increasing patient demands, optimize performance, and boost staff productivity—all while operating in a secure IT ecosystem that protects sensitive patient data.

In 2023, healthcare and public health organizations made up the highest number of ransomware attacks in the U.S.\* The need for immutable data storage, reliable enterprise backups, and comprehensive archiving is critical to ensure robust data management and compliance with strict regulatory requirements.

MelilloSMART, a suite of proprietary, turnkey solutions helps you strategically position your healthcare organization to meet your most pressing demands and capitalize on new opportunities. Offering holistic, comprehensive support and consultancy designed to minimize complexity and boost productivity, MelilloSMART solutions include:

- **MelilloSMART RiskMit:** Benefit from comprehensive risk mitigation management processes that reveal vulnerabilities, remediate them, and reinforce security measures to protect your sensitive healthcare data.
- **MelilloSMART Protect:** Safeguard from emerging threats with a comprehensive managed service that boosts your security posture through regular Penetration Testing and ongoing vulnerability assessments.
- **MelilloSMART EZMigrate:** As you grow and acquire new facilities, integrate new systems and standardize on vendor-neutral archives, ensuring seamless data migration and minimal disruptions.
- **MelilloSMART RapidDeploy:** Streamline OS modernization by generating a virtual sandbox for preliminary testing for quick deployment of critical applications that reduce downtime and minimize disruptions to patient care.
- **MelilloSMART SupportTRAX:** Managing contract renewals for equipment and services can be overwhelming. SupportTRAX simplifies this process, ensuring you never miss a contract deadline—so you can deliver continuous and compliant patient care.
- **MelilloSMART AIAdapt:** Introduce AI to automate routine tasks and analyze complex data, so you can enhance clinical care and allocate staff to more critical functions.
- **MelilloSMART DataOpt:** With solutions that include AI/ML, Data Warehouse, Data Lake, and Data Lakehouse, DataOpt turns your healthcare data into a strategic asset that offers accurate predictive insights for enhanced patient care.

## MelilloSMART

At a time when technology is both a tool and a challenge, Melillo is your ally in navigating the increasingly complex digital healthcare landscape. Built by a team of experts who have been in the business of technology for over 30 years, MelilloSMART solutions leverage cutting-edge technology to help you boost ROI, enhance operational efficiency, and secure your sensitive data, ultimately positioning you to improve patient care and outcomes.
